Understand. Do not plan on running rad screening.

That's what I thought. We will not plan on performing the Rad screening unless you tell us otherwise. If you do want it, we would need to get the rad equipment.

good question..... probably not. we didn't find anything last round so I see absolutely no reason to do it this time.

We aren't doing Rad screening on the samples back at the CP, are we?

OK no problem.

We are working on getting Ft. Meade to provide water. Charlie Fitzsimmons would pick up the water on his drive up to Dimock on Monday afternoon.... backup plan is distilled water.

Thanks Rich. An answer by Monday is fine.
Have a good weekend.

if no one answers you tonight I will answer all your questions. Do you need an answer tonight? When do you need the answer by?

ERRS will clean the building.

Hi Joanna,

Do you have any information as to what HW number the new homes will be?

Also, is there any thought as to what the sample numbers will be for the homes that we resample. Scribe will not allow us to have duplicate sample numbers. So we will not be able to use the same sample numbering scheme. I would recommend we only change it slightly and still keep the HW number in the sample number. If there is not a specific sample numbering scheme that EPA wants, we could always just add a "R2" to the end of the sample number to indicate a round 2 sample. Another options is to add a lowercase "a" to the end of the sample number. If anyone has any additional suggestions, please let me know.

Also, is it possible to have ERRS sweep/mop the floor in the garage of the CP. During our last visit in March it was very dusty in the garage and I'm sure it is even more dusty now.

Thanks,

Suddha Graves

Subject: Sampling Schedule 5/22-24

Tuesday 5/22

8:30 AM - Ex. 6 - Personal Privacy

This is a new/left over home. They have a spring and ultraviolet treatment and will not be splitting

1:30PM - I am trying to tentatively schedule Ex. 6 - Personal Privacy in this slot

Wednesday 5/23

8:30 AM - Ex. 6 - Personal Privacy

This is a re-sample of a resident on a water buffalo

10:30 AM - Ex. 6 - Personal Privacy

This is a new home. I don't have any information so be prepared to take the full two sets, they are not splitting

2:00 PM - Ex. 6 - Personal Privacy

This is a re-sample of a resident on a water buffalo (go whenever finished with previous home)

Thursday 5/24

Anytime - Ex. 6 - Personal Privacy

This is a re-sample of a resident on a water buffalo

I am trying to tentatively schedule the Sautner's for this day as well.

Suddha - Send three or four of each cooler with a return label for Deb Lindsey, EPA, 1060 Chapline Street, Suite 303, Wheeling, WV 26003. The remaining coolers should have a return address of the COOP. I will have to get the information for you.

Rich squared - The access forms are printed out and on my desk. They will need to be signed prior to sampling being completed. Please put the signed forms in my in box when you are done.

If anyone has any questions at all, please call me. I will be available and at your service by phone:)
